SM is a MultiCard marker for labelling control and signalling devices. The tags are clipped into the carriers or attached by means of the adhesive film already fitted to them. Customised tags can be created with the PrintJet PRO, MCP Plus plotter, MCP Basic or MC-Mobilo marking systems.

- Users can quickly produce tags to suit their needs
- No need to stock expensive standard tags
- Highly resistant printing quality when using the PrintJet as a substitute for engraving
- For extreme demands, we recommend the ETO SM protective film
- Holders can be used for the 22-mm-diameter push-buttons from Siemens, ABB, Moeller and Télémécanique

General ordering data

Type	SM 27/12.5 MC NE SI
Order No.	1713700000
Version	Device markers, MultiCard, 12.5 x 27 mm, Polyamide 66, Colour: Silver
GTIN (EAN)	4008190331115
Qty.	80 pc(s).
