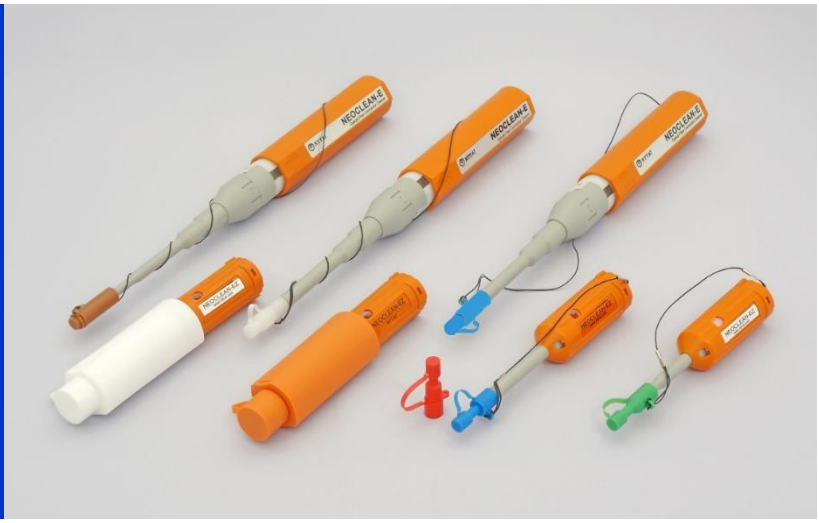
Optical Connector Cleaners
NEOCLEAN-E、EZ series

Easy push optical connector cleaner for connectors and devices

Optical Connector Cleaner

NEOCLEAN-E series
NEOCLEAN-EZ series

The NEOCLEAN-E series and NEOCLEAN-EZ series are compact size and easy to carry.
Try our cleaners for cleaning of optical connectors during optical construction and maintenance.



One-push “Skill less” Operation

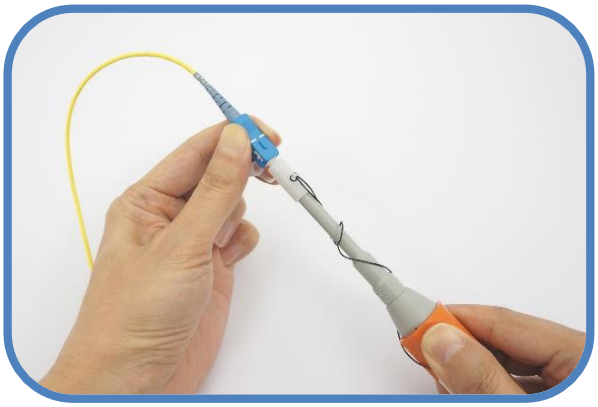
You can remove dirt on optical connector with a simple push operation.
Our cleaners are for not only optical connectors in devices but also connector plugs with attachment cap.

Economic Replacement Cartridge

You can reduce the cost per cleaning using replacement cartridge (Sold separately).
(For NEOCLEAN-E series)

Compact Design

While enabling over 400 cleaning times, a compact design provides an excellent workability and portability.
(For NEOCLEAN-EZ series)



Specifications

Product	NEOCLEAN-E1	NEOCLEAN-E2	NEOCLEAN-E3
Appearance			
Model	ATC-NE-E1	ATC-NE-E2	ATC-NE-E3
Compatible Connector	MU※, LC	SC, FC, FAS, FA	SC, FC, ST, E2000
Compatible End face	PC, APC		
Number of use	More over 750 times		
Length	240mm	230 mm	230 mm
Cap color	Brown	White	Blue
Replacement Cartridge Model	ATC-NE-ES1	ATC-NE-ES2	ATC-NE-ES3
Note	Replacement Cartridge is sold in 3 pieces / set ※Not compatible with MU type backplane connector		

Product	NEOCLEAN-EZ1	NEOCLEAN-EZ2	NEOCLEAN-EZ3	NEOCLEAN-EZ1 Plus	NEOCLEAN-EZv
Appearance					
Model	ATC-NE-EZ1	ATC-NE-EZ2	ATC-NE-EZ3	NEOCLEAN-EZ1P	ATC-NE-EZv
Compatible Connector	MU, LC	SC, FC FAS, FA	SC, FC, ST, E2000 Broadcast optical connector※1	MU, LC, ODC	Broadcast optical connector※1
Compatible End face	PC, APC				
Number of use	More over 400 times				
Cap color	White	Orange	Blue Red※2	Green	Red
Length	104 mm (Extension of length:167 mm)		109 mm	107 mm	109 mm
Note	EZ series is a single-use type cleaner. ※1 NTT-AT confirmed compatibility the following broadcast optical connector SMPTE 304M standard connector (LEMO) / OPS、OPC series (Tajimi electronics Co., Ltd.) OC series、FC series (Canare Electric Co., Ltd.) (Please contact us if you concern other connectors) ※2 A red cap for broadcast optical connector is included with the product.				

Why do I need to clean optical connector? How do I use connector cleaner?
You can download our white paper for your question “The Impact of Optical Connector End-Face Contamination and How to Prevent it” and instruction manual from NTT-AT’s website.
