CROUZET

Millenium Slim

« THE SMALLEST LOGIC CONTROLLER EVER »

Why choose MilleniumSlim?

01. SPACE REDUCTION

02. MULTIPURPOSE

03. INTERCONNECTIVITY

04. SIMPLICITY

A MULTITUDE OF APPLICATIONS IN YOUR HAND

With **The Millenium Slim Family**, a large choice is packed of **pre-programmed applications** ready to be used as it comes out of the box, configure your own with **CrouzetSoft**, the standard in light automation programming software and **Millenium Slim**.

EXPLORE OUR APPLICATIONS LIBRARY

01. SPACE REDUCTION

MilleniumSlim is the only ultra-thin logic controller with only **17.5 mm** (0.7 inch), the smallest on the market, and **Millenium Slim** is the only **Millenium** that can be mounted on the panel door.

FITS IN ANY CONTROL PANEL

Save a lot of space in any control panel!

- Smaller control panel
- Optimal space occupancy
- Free remaining space for other devices

FITS IN ANY MACHINE

Still roll in panel mounting, combined with its slim size, makes installation possible in any machine!

- The smallest logic controller in the world!
- Ultra-thin **MilleniumSlim** is the only **Millenium** that can be mounted on the panel door!
- Space saving! Smaller machine, smaller footprint!

02. MULTIPURPOSE

MilleniumSlim is a highly versatile logic unit. Each controller has a multitude of functions, which can be combined to create a complete configuration, in just a few clicks!

03. SIMPLEST INTERCONNECTIVITY

Easy wireless capabilities to your simple applications, communicating between **MilleniumSlim** and **Millenium**, without any wiring, allows to complete the design in minutes without configuration, processing options that you may not have thought of in the past.
