- **Power:** USB powered with power jack and charging cable for better stability
- **Compatibility:** Ideal for MacBook, Chromebook and other USB-C laptops

- **Installation:** Simple Plug-and-Play installation

Description

The CTC4USB3 4-Port USB 3.2 Gen 1 Hub with Power Jack expands a single USB-C port into four USB-A ports, giving your laptop or desktop an easy way to connect more peripherals through one compact hub.

Simply plug the hub into a USB-C enabled device such as a MacBook, Chromebook or other late-model laptop and add USB accessories like flash drives, external hard drives, keyboards, mice and card readers. With SuperSpeed transfer rates up to 5Gbps, it supports fast data syncing for work, study and entertainment at home, in the office or on the go.

The hub is powered via USB for everyday use and also features a power jack with a charging cable that can supply extra power when needed, helping to maintain more stable performance with multiple or higher-draw USB devices. With simple plug-and-play installation and a compact design, this USB-C hub is a practical way to extend your connectivity.
