Sens'it Generic

ALTYOR

The Sens'it device is available if you want to build your own IoT solution with an off-the-shelf, certified, powerful device. This so-called **Sens'it Generic** offer is independently available for large quantities from our partner Altyor.

The device will be fully personalized to meet your needs:

Make Sens'it behave the way you need by creating your own **embedded software with Sens'it SDK.**

Customize the **front Lexan.** Make it suitable for your use case or highlight your own branding.

Rechargeable • **Reprogrammable** • **Water resistant (IP54)**

Certifications:
- Sigfox Ready (all radio configurations: RC1, RC2, RC3, RC4)
- CE - FCC - ARIB - Australia - Singapore

An SDK for developers

Developers can turn their Sens'it into a devkit and customize its behavior using the Sens'it Software Development Kit (SDK).

- Get direct access to your data on the Sigfox Cloud
- Change Radio Configuration or message periodicity
- Use multiple sensors at the same time
- Build custom apps
