

E3R NOVA

820 MAX LUMENS

With extreme brightness that fits in the palm of your hand, the compact and extraordinarily capable Powertac E3R Nova rechargeable flashlight is one of the brightest sub-compacts on the market today. The E3R Nova is a rechargeable LED flashlight that emits an extremely bright 820 lumens despite fitting easily in your pocket. The E3R Nova is equipped with a super bright white LED and can emit a powerful beam up to 86 meters in length for impressive visibility wherever you are. With an efficient design that doesn't compromise power for size, the new E3R Nova flashlight delivers the performance you need with a long-lasting runtime so you always have a light when you need one.
