

REACH and POP Declaration

Regulation (EC) No 1907/2006 - Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)
Regulation (EU) 2019/1021 - Persistent Organic Pollutants (POPs)
Assimilated Regulation (EC) No 1907/2006 - Registration, Evaluation, Authorisation and Restriction of Chemicals (UK REACH)
Assimilated Regulation (EU) 2019/1021 - Persistent Organic Pollutants (UK POPs)

Bulgin Limited manufactures and supplies articles as defined under REACH and UK REACH. As a manufacturer of articles, Bulgin relies on structural data provided by its supply chain, together with internal material controls and product compliance reviews, to assess conformity with all applicable REACH, POPs, UK REACH, and UK POPs requirements.

Bulgin Limited confirms full compliance with the restriction provisions of Annex XVII under both REACH and UK REACH. Furthermore, Bulgin Limited manufactured articles comply fully with the substance prohibitions and restrictions outlined across Annex I and Annex II of both POPs and UK POPs, including all text updates up to and including Delegated Regulation (EU) 2025/802 and The Persistent Organic Pollutants (Amendment) Regulations 2025 (SI 2025/296).

In accordance with Article 33 of REACH and UK REACH, Bulgin Limited reviews and monitors all updates to the Candidate List of Substances of Very High Concern (SVHCs). Based on these reviews, Bulgin Limited discloses that certain articles contain specific substances included on the European Chemicals Agency (ECHA) Candidate List updated 4 February 2026 (253 substances) and the corresponding Health and Safety Executive (HSE) candidate list in concentrations exceeding the 0.1% weight-by-weight (w/w) threshold.

SVHC Declaration:

Where applicable to specific products, materials, or components, Bulgin has identified the following substances that may be present above the REACH Article 33 threshold of 0.1% w/w per article:

SVHC	CAS Number	Material / Component Application	Concentration
Lead (Pb)	7439-92-1	May be present in certain alloys, ceramic materials, or piezoelectric components.	> 0.1% w/w
2,2',6,6'-tetrabromo-4,4'-isopropylidenediphenol	79-94-7	May be present in certain polymeric or flame-retardant materials.	> 0.1% w/w
2-(2H-benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol	3147-75-9	May be present in certain polymeric materials as a UV stabiliser.	> 0.1% w/w

This declaration is based on information available to Bulgin at the date of issue and remains valid unless superseded by changes to legislation, the ECHA Candidate List, POP restrictions, product design, materials, supplier information, or other compliance-relevant data. Product-specific declarations or supporting information will be provided on request, where a Candidate List substance is confirmed to be present above 0.1% w/w per article.
