REACH Statement

EU Regulation (EC) 1907/2006, REACH

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals, EC 1907/2006) is the European Union's (EU) chemical substances regulatory framework.

HMS Networks (HMS) is a company designing, manufacturing and marketing electronic products. HMS is aware of the REACH regulations, potential implications for our business and our obligations to take relevant actions to enable business continuity.

Article 7 – Registration

With regard to Article 7(1) of the REACH regulation, articles produced by HMS do not contain substances intended to be released under normal or reasonably foreseeable conditions of use and do not contain any Substances of Very High concern (SVHC) that exceed 1 ton per year.

Article 33(1) – Communication of Substance Information

Article 33(1) requires a supplier to inform its customers if an article contains a substance(s) on the Substances of Very High Concern (SVHC) Candidate List in excess of 0.1% weight by weight of that article. The list below shows information about the content of SVHC in HMS products, if SVHC is present in the product in a concentration above 0.1% w/w, we refer to the unique SCIP number for further information. If a product number is not listed or if you have further questions regarding product environmental compliance, please contact sustainability@hms-networks.com

We are keeping cooperating with our suppliers to search a way to eliminate the use of these SVHC's by replace them with less dangerous substances or technologies where technically and economically feasible alternatives are available.

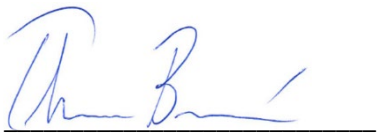

Article 56 & 67 – Authorization and Restriction

Substances subject to authorization listed in Annex XIV (included in SVHC list) are not present in HMS products.

HMS has reviewed the latest Restriction List and declares that all supplied products meet the conditions for use and are thus compliant with Annex XVII.

If you have any questions or require further clarification, please contact us.

This statement is based on information and data provided from 3rd parties and may not have been verified through destructive testing methods or other chemical analysis. HMS reserves the right to change the information stated in this document without any further notice.
