CUSTOMER INFORMATION ABOUT THE REACH REGULATION AND THE LIST OF CANDIDATES

We are hereby informing you that the products delivered by us – according to our current state of knowledge and the information from our suppliers – do not contain any substances of very high concern (SVHC) from the list of candidates (as of: 01/17/2022) in a quantity above 0.1% in accordance with Article 33 of the REACH regulation (Regulation (EC) no 1907/2006).

EU suppliers of products which are processed in our products at a relevant level are also obliged to inform us, without being prompted, if the products they supply contain an SVHC substance in a quantity of more than 0.1%. If we receive information regarding this from our suppliers and are thereby made aware that the 0.1 percent by mass threshold for an SVHC substance has been exceeded in our products, we will inform you of this.

We will conclude special agreements with all non-EU suppliers of products which are processed in our products at a relevant level. This will involve us obtaining written assurance that we will be informed immediately if the 0.1 percent by mass threshold for an SVHC substance has been exceeded in a product delivered to us.
