REACH Declaration

Keystone Electronics Corp is a manufacturer of electronic components and hardware. We are therefore considered a “downstream user” as far as the REACH document is concerned. Keystone Electronics Corp. is therefore not obligated to register with the European Agency for Chemicals ‘ECHA’.

The products that we supply are non-chemical products and under normal and reasonable use, they will not release harmful substances.

Our products, except parts listed below (*) meet REACH requirements for chemicals designated by the European Chemicals Agency (ECHA) as Substances of Very High Concern (SVHC) appended on the following pages. We will continue to monitor the REACH regulation and advise of any changes.

Larry Nembhard
Director of Engineering

(*) **All Brass, Steel and Aluminum Spacers & Standoffs, Micro Pins & Jacks, Jack Screws, Binding Post, Banana Plugs, Knobs, Shaft locks, Brass Handles & Ferrules, Turret Terminals, Terminal Boards & PTFE Terminals & Pins**

- June 27, 2018 lead was added as a substance of concern. One of the condition of restriction is that the rate of lead release does not exceed 0.05 µg/g/h and for coated articles, that the “coating is sufficient to ensure that this release rate is not exceeded for a period of at least two years of normal or reasonably foreseeable condition of use of the article”.
- All our brass and aluminum standoffs contain lead CAS No. 7439-92-1, (3.5 % maximum for Brass & 0.4% maximum for Aluminum), as alloying element. These parts are plated and we are confident that under normal use will not release lead that exceeds 0.05µg/g/h.
- The commission will re-evaluate this entry in the light of new scientific information, including the availability of alternatives and coating integrity and if appropriate, modify this entry accordingly.

(*) **Rubber Grommets, Cat Numbers** Contains contain DEHP CAS # 117-81-7
