Regulation (EC) No 1907/2006 (REACH Regulation)

Manufacturer Declaration of Conformity

Traco Electronic AG (TRACO) hereby declares that all TRACO POWER products do not contain added Substances in concentrations greater than 0.1% by weight in view of Regulation 1907/2006 (REACH) - Article 57 / Annex XIV and Annex XVII above the maximum limits. New candidate list of Substances of Very High Concern (SVHC), issued by the European Chemicals Agency (ECHA), are published every 6 months, resulting in a compliance update process at TRACO to identify, if the new substances are not contained in any of our products.

Based on those analysis, some electrical components assembled in our products contain lead in concentrations higher than 1000ppm (where RoHS exemptions do apply - as mentioned in our RoHS declaration). With regards to the used RoHS exemptions and with respect to the current candidate list (according to REACH - Article 59) and in accordance with REACH Article 33 (to inform recipients of articles that contain any of the Chemicals on SVHC list with concentrations above 0.1% by weight by article), we declare the use of such substances (like lead, which is often used in electronics) in our product datasheet. This declaration process will be introduced in Q1 of 2025. Please contact us (www.tracoserviceportal.com) if you need this information earlier.

Remark: This declaration refers to component concentrations, not to the lower concentration in the final TRACO POWER product. Due to this strict O5A rule (Once an Article, Always an Article), such component (article) concentrations are reported, independent if the concentration on the final product does reach SVHC concentration limits or not. TRACO does follow the O5A rule and reports concerned substances in the product datasheet.

The weight of the SVHC candidate substances shipped into the EU does not exceed 1 ton/year. Therefore, REACH Article 7 to notify ECHA is not applicable to meet REACH requirements.

TRACO is diligently working to ensure that our supply chain is and remains free of concerned substances. Please contact us if you have any further questions about our program.

This declaration covers the latest SVHC candidate list, attached on the following pages.
