## REACH declaration

To whom it may concern,

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals, EC No 1907/2006) is the EU chemical substances regulatory framework. CSG S.A. complies with all requirements of the regulation and we are committed to providing our customers with information about the presence of REACH Substances of Very High Concern (SVHCs).

We have reviewed the Candidate List published on the ECHA website (current as of June 14, 2023) and can confirm that SVHCs are not present in the products supplied by CSG S.A. in a concentration level above which CSG S.A. is obligated to inform the recipient of a presence of that substances.

Paweł Ochyński
