**Manufacturer's information
REACH Regulation (EC) No 1907/2006**

Regulation (EC) No 1907/2006 is the European Chemicals Regulation in regards to registration, evaluation, authorization and restriction of chemical substances. The Regulation has been in force since June, 2007. One of its main purposes is to ensure a high level of protection of human health and the environment. Economic actors like manufacturers, importers or downstream users are assigned to different tasks in order to fulfill the legislative obligations.

MENNEKES is an article (or complex object) manufacturer and therefore acts in accordance with the REACH Regulation as “downstream user”.

Products (or articles or complex objects) manufactured by MENNEKES comply with REACH Regulation (EC) No 1907/2006. MENNEKES fulfills all necessary obligations, especially those, that apply to “downstream users”.

MENNEKES is not obliged to register the chemical substances, from which MENNEKES products are made. This obligation is fulfilled by our suppliers or their upstream suppliers, respectively.

According to Article 33 of the REACH Regulation, MENNEKES as a “downstream user” is obliged to inform the next in the supply chain about the presence of a so-called *substance of very high concern (SVHC)*. All SVHCs are on the Candidate List for Authorization, which is managed and frequently updated by the European Chemicals Agency (ECHA). For more information, please visit ECHA’s webpages. The current version of the Candidate List can be found here: <https://echa.europa.eu/candidate-list-table>

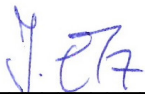

SVHC-information have to be given, if the substance exceeds the mass fraction value of 0.1 and is present in an article as such (the smallest modular unit, that is defined as an article according to REACH Regulation) that is used in MENNEKES products.

MENNEKES products contain many articles as such. In some of those articles, SVHCs are present. Due to the presence of different SVHCs in different amounts as well as in different articles as such, a general statement cannot be made.

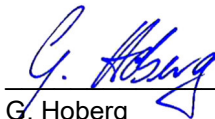

Hence, the relevant SVHC-information is passed on via our homepage as well as upon request.

If you have any questions regarding that topic, please do not hesitate to contact us. Direct your questions to your contact person of Sales Department or write an email to product_compliance@mennekes.de.
