Radio Equipment Directive (*FuAG*) Compliance

Important information

From **28 December 2024** onwards, the Radio Equipment Directive (RED, *German: FuAG*) applies to all **new product listings** on Conrad Marketplace of any country we operate in. To comply with the law, it is **mandatory** to **provide the technical information** explained below. Germany's FuAG implements EU Directive 2022/2380 and stipulates the information you will need to provide.
**We generate the relevant pictograms based on the technical information you provide**. Hence, please refrain from uploading any pictograms yourself.

## Compliance with the Radio Equipment Directive (RED/FuAG)

The RED both ensures the safety and electromagnetic compatibility of radio equipment and enables an efficient use of the radio frequency spectrum.
Product labelling is one of the new stipulations of the RED. From now on, product detail pages (PDPs) must display pictograms that specify the type of charger included in the purchase. The RED/FuAG governs the exact design of these pictograms (see below).

1. RED-compliant charger available

Charger included	Charger not included

2. Charger specifications

How to comply on Conrad Marketplace

We generate the pictograms based on these attributes/values:

Attributes	Values	Pictogram #
RED-compliant charger available *(Product.PowerSupplyIncluded)*	Yes No Product not governed by RED/FuAG	1
Charging capacity (min) *(ATT.NUM.CHARGING_CAPACITY_MIN)*	Integer + W (watts)	2
Charging capacity (max) *(ATT.NUM.CHARGING_CAPACITY_MAX)*	Integer + W (watts)	2
Charging method (Power Delivery) *(ATT.LOV.LOADING_TECHNOLOGY_PD)*	USB Power Delivery (leave blank if product does not support USB PD)	2

The "RED-compliant charger available" attribute determines which of the two pictograms shown in Section 1 will be displayed. You need to indicate whether the product is, or is not, governed by the PED.

The pictogram shown in Section 2 provides the relevant technical information such as charging capacity range and Power Delivery (PD) support. The pictogram will display the values you provide.

PED-compliant categories

0611041	Action cams
1805010	Bluetooth® hands-free sets
1310040	Bluetooth® speakers
0417038	Camcorders
3620048	Digital cameras
