

## SOCKET OUTLET TESTER | TESTAVIT SCHUKI 1, 3 | Socket outlet tester Schuki1, Schuki 3

The socket outlet testers Testavit Schuki 1 and Testavit Schuki 3 are essential test instruments for all professional technicians. The test instruments display all dangerous faulty connections in the socket outlets by means of various lighting configurations and signal lamps. Thus technicians are able to quickly and safely check installations. The Testavit Schuki 1 is additionally equipped with an RCD test function. This allows RCD circuit breakers with a rated current of 30 mA and a tripping time of 200 ms to be tested.

### Your advantages:

- | 3 years manufacturer's warranty
- | TÜV / GS tested and approved
- | IEC/EN 61010-1, DIN VDE 0411

The Testavit Schuki 1 and 3 can be utilised to check socket outlets, cable drums, device wiring and interconnecting cables in 230-V installations. By utilising an adapter it is possible to use them in recreational applications such as boats and caravans. The devices can also be used in old buildings with protective multiple earthing. Here correct connection of the wiring is tested.

## SPECIFICATION

Technical Details	Testavit Schuki 1	Testavit Schuki 3
Display	optical, glowing lamps	optical, glowing lamps
Operating Voltage	230V, 50Hz	230V, 50Hz
Power Supply	by test object	by test object
Error Current	30 mA	- / -
Release Time	200 ms	- / -
RCD Triggering	yes	- / -
Dimensions	65 x 50 x 75 mm	50 x 75 mm
Protection	IP 20	IP 20
Overload Category	CAT III 600 V	CAT III 600 V
Weight	100g	70g
TÜV / GS	IEC/EN 61010 - 1	IEC/EN 61010 - 1
Colour	red, grey	red, grey
Scope of Delivery	1x operating instructions	1x operating instructions
