- Model PQ3110 100A Probes
- Model PQ3120 1000A Probes
- Model PQ3210 1200A Flex Probes
- Model PQ3220 3000A Flex Probes

Introduction

Congratulations on your purchase of the Extech Current Probe Set (set of three) for use with Model PQ3350 Power and Harmonics Analyzer. These probes can fit around conductors, cable bundles, and bus bars. The power analyzer provides comprehensive power analysis and datalogging on 3-phase electrical systems. Careful use of this device will provide years of reliable service.

Safety and Operation

Safety and operating instructions are contained in the PQ3350 Instruction Manual

Warranty

EXTECH INSTRUMENTS CORPORATION (A FLIR COMPANY) warrants this instrument to be free of defects in parts and workmanship for one year from date of shipment (a six month limited warranty applies to sensors and cables). If it should become necessary to return the instrument for service during or beyond the warranty period, contact the Customer Service Department at (781) 890-7440 ext. 210 for authorization or visit our website www.extech.com for contact information. A Return Authorization (RA) number must be issued before any product is returned to Extech. The sender is responsible for shipping charges, freight, insurance and proper packaging to prevent damage in transit. This warranty does not apply to defects resulting from action of the user such as misuse, improper wiring, operation outside of specification, improper maintenance or repair, or unauthorized modification. Extech specifically disclaims any implied warranties or merchantability or fitness for a specific purpose and will not be liable for any direct, indirect, incidental or consequential damages. Extech's total liability is limited to repair or replacement of the product. The warranty set forth above is inclusive and no other warranty, whether written or oral, is expressed or implied.
