

## HC49/4H CRYSTALS

### DESCRIPTION

HC49/4H crystals share the same base dimensions as the industry-standard HC49 crystal but with a low profile can. The crystal utilizes an AT-cut strip crystal with a hermetically sealed metal can. HC49/4H crystals provide a low-cost solution for many applications, particularly where PCB height is restricted.

### FEATURES

- Very low cost crystal
- Available with 3.5mm (standard) or 2.5mm height
- AT-cut strip crystal with hermetically sealed metal can
- Comprehensive Euroquartz stockholding
- Ideal crystal for height-limited PCBs
