

HEXBUG® Spider Micro Robotic Creatures

The **HEXBUG® Spider** is a robotic creature that is an electro mechanical marvel to watch and operate. Each **HEXBUG Spider** features 360 degree steering, an LED forward eye, and two-channel, user selectable infrared remote control. The two-channel remote control enables the user to operate multiple bugs independently or at the same time. The largest member of the HEXBUG family, the complexity of its internal mechanisms and six-legged crawling motion is simply fascinating to operate and watch. HEXBUG Spider is CPSIA approved for kids ages 8 and up.

How does it work?

The six-legged **HEXBUG Spider** features 360 degree steering and an LED forward eye, allowing the user to maneuver it around objects and control precisely where it scurries. Three button cell batteries are included in each HEXBUG Spider and two with each remote.

Fits in the palm of your hand for miniature robotic fun at anytime!
