

## **Safety information for internal rechargeable Lithium-ion battery**

GB

The internal rechargeable lithium-ion battery used in this device is able to supply power for a long period of time. However, even lithium-ion batteries reach a point where they cannot be recharged. If the battery does not recharge after several attempts, it may be drained (has a low charge), please contact ***info@sagean.com.tw*** for repair information.

However, if you do not want us to replace the battery, you will need to dispose of used batteries/ device in accordance to the laws and regulations in your area. In addition, you can contact your local electronics retailers or recycling center for disposal.

### **User Safety Precautions**

- Check the room temperature range is 0°C-45° C (32°-113° Fahrenheit) before charging the battery.
- Do not attempt to disassemble the plastic covering or any parts of the device, as the materials inside may be toxic and may damage skin and clothes.
- Do not puncture, crush, modify, throw or cause any unnecessary shock to your battery, as **the battery used in this device may present a risk of fire, explosion, or chemical burn if mistreated.**
- Do not leave, charge or use the battery in a car under direct sunlight, near fire or a heated source.
- Do not immerse, throw, wet the battery in water/ seawater.
- Do not use or charge the battery if it appears to be abnormally hot, discoloration, deformation or abnormal conditions is detected during use, charge or storage.
- Do not leave a charging battery unattended. Keep the battery away from babies and children.
