MAGLITE[®] Solitaire[®] Led

MAG

A Keychain-Size Flashlight with Big-Light Power.

That describes our Maglite[®] Solitaire[®] LED Flashlight. It features the classic look of our original Solitaire[®] flashlight introduced in 1988. And it works in the same simple way –

just twist the head to turn on, turn off and focus spot to flood.

But thanks to a new, state-of-the-art LED light engine, you get something you just wouldn't expect to see coming out of a flashlight so small: A blast of power that can light up an object at the far end of the parking lot.
