

# Using Instructions solar light „Partytime“

## 3. Usage in Accordance with Requirements

This party lights are for the atmospheric lighting in outdoor use. They are designed for year-round outdoor use. The product is waterproof and should not be exposed to direct water jets or immersed in water.

## 4. Function

In sunshine the internal battery is charging. At night, the light turns on automatically. As a light source there 4-color LEDs are installed.

**Note:** Please change battery every 2 years. The solar module shall always be free of snow in the winter.

## 5. Assembly and initiation

1. Take the pieces carefully from the packaging.
2. Unscrew the transparent front part of the light and turn on the slide switch to the "ON" position (ON).
3. Find a suitable location for the lamp. They can be hung on the clip on a string or on trees or bushes.

**Note:** During the winter months the duration of illumination will generally be shorter. If the lamp should not shine on the first evening, please wait for a sunny day.

## 6. Exchange of Accumulators

After one to two years, the capacity of the accumulator will decrease. It is then required to exchange the accumulators. The accumulator is available in the shops (NiMh 1,2 V/ 600 mA) or from the manufacturer.

1. Unscrew the transparent front part of the light
2. Slide the battery cover on and remove the battery.
3. Slide the new battery again observing correct polarity (+ pole to the outside) and worn the light again.

**Note:** Use batteries or accumulators must be disposed of in a non-polluting way and do not belong into the domestic waste. Your dealer is legally obliged to take back the old accumulators.

## 7. Malfunctions

### Lamp does not turn on in the dark

- Light is switched on?
- An outside light source (such as streetlight) simulates natural light to the solar module and prevents switching on the light. Place the lamp in a dark place.
- Weak or defective battery? Replacing the battery pack at least every 2 years!

## 7. Specifications

Solar module:	2 V/ 70 mA
Accumulator:	NiMh 1,2 V/ 600 mAh
Light time:	Max. 6 h
Protection class:	IP 44
Temperature range:	-20°C to +40°C

## Battery take-back

- Batteries must not be discarded into domestic waste.
- The consumer is legally required to return batteries after use, e.g. to public collecting centers or to battery distributors.
- Contaminant-containing batteries are labeled with the sign "crossed-out trashcan" and one of the chemical symbols. Used batteries should be disposed environmentally friendly and should not be discarded into domestic waste. Your dealer is legally required to take back old batteries.

NiMh

## Rechargeable battery notes

- Rechargeable batteries should not be played with by children. Never leave rechargeable batteries lying around; they could be swallowed by children or pets.
- Rechargeable batteries must never be short-circuited, disassembled or thrown into fire. This leads to a danger of explosion!
- Leaking or damaged rechargeable batteries can cause chemical burns when they come into contact with skin. For this reason, please make use of suitable protective gloves.
- Rechargeable batteries should only be replaced by structurally identical rechargeable batteries from the same manufacturer. Normal batteries must not be used since these are not rechargeable.
- Make sure the rechargeable batteries are inserted with the correct polarity.
- For long periods of time of non-use (for example, storage), remove the inserted rechargeable batteries to avoid damages via the leaking rechargeable batteries.

## Disposal:

Dear customer,  
please cooperate in avoiding waste. When you intend to dispose of the product in future, please consider that it contains valuable raw materials suited for recycling.

Therefore, do not dispose it of with domestic waste but bring it to a collection point for the recycling of waste electrical and electronic equipment.

Thank you very much for your cooperation!

## 1. Introduction

Dear customer, we thank you for purchasing the Solar Globelight. With this Solar Light you have purchased a product that complies with the latest and most up-to-date technology.

**This product complies with the European and National Standards. The relevant certificates of conformity are deposited with the manufacturer.**

**To preserve this standard and in order to maintain safety you must adhere to the use instructions!**

## 2. Security Instructions

**In the event of any problems arising or damage occurring from not following these instructions, the warranty is deemed cancelled. The manufacturer will not be held responsible for any claims or damages arising from the misuse of this product.**

- For safety reasons and in order to maintain standards (CE) you are prohibited from altering or changing any component in the product.
- Please follow the instructions very carefully.
- For commercial applications due care and attention must be paid to the Health and Safety Standards in your jurisdiction.
