

DATA SHEET

Aluminium housing

Description

Characteristic features

- Shapely, rugged aluminium housing
- Temperature range -20...+80 °C

Typical areas of application

- Modems
- modules for data collection
- converters for serial interfaces

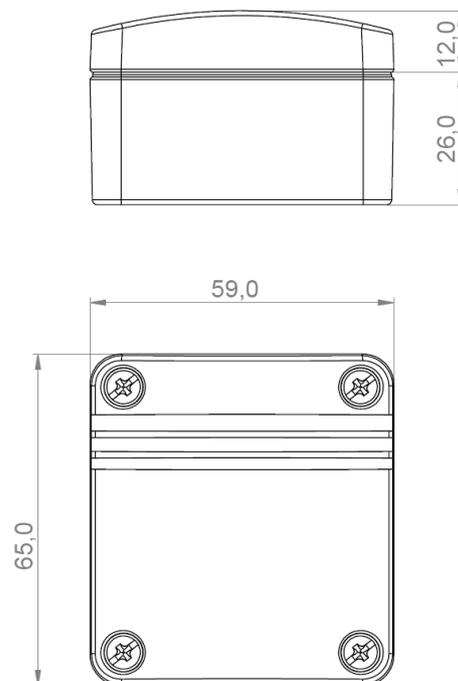

Technical data

Aluminium housing	
Material	Aluminium die casting
Temperature range	-20...+80 °C
Dimensions (LxWxH)	T1-C1-A: 65 x59x38 mm
Scope of delivery	Screws inclusive

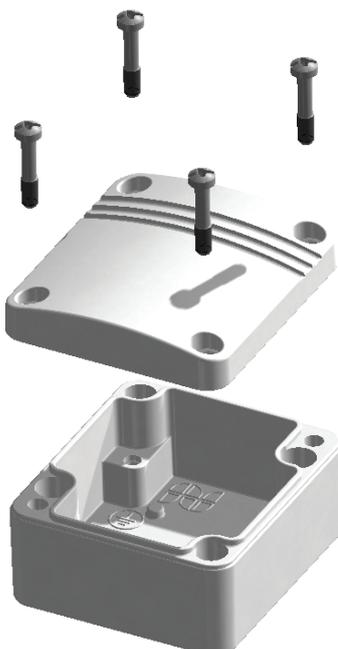

Features

The shapely, rugged aluminium housing in classic design was developed for industrial products like converters for serial interfaces, modems or similar connectives. Because of the inner dimensions the installation height suffices for components up to 18 mm, such as plug connectors.

Dimensions (ADG-T1-C1-A)
