

---

# Vornado 630

... air circulator – ready for use the whole year round!

---

The Vornado 630 circulates air throughout the entire room, just like all other larger Vornados as well. It blends warm and cold air together and evens out the temperature within a room, providing an overall comfortable atmosphere. Vornado 630 is great for middle-sized rooms, such as in kitchens, hallways or stairways. The large blades operate in a smooth and quite motion, making Vornado 630 especially practical for quiet rooms, like bedrooms.
