

Hook and Loop Ties

• TEXTIE-Series

Features and Benefits

Quick and simple to use without the need for tools they have no waste, are corrosion free, are resistant to ageing and are re-usable (up to 400 times).

Various colours are available to enable easy identification of multiple cable runs.

Application

As cables use thinner and softer insulation, and as fibre optic cables become more common there is a need for a 'soft' method of bundling. The TEXTIEs are ideal for use on telephone cables, optical fibre and network cables.

Perfect for use in temporary installations such as theatre stage construction or prototype cable harnesses.

There are a lot of private and office applications, too.

Due to the functional cable tie design the TEXTIE is fixed on the cable and can't get lost.

The TEXTIE-Series is available in different colours and lengths.

Mounts for fixing are available on request. Please contact us!
