Subject : RoHS Compliance

To Whom It May Concern:

As we presently understand the EU Directive 2002/95/EC relating to the restriction of hazardous substances in electrical and electronic equipment (“RoHS”), the following product(s) are in compliance with this Directive:

3M Electrical Tape # 23

The term “presently understood” used above refers to the phrase “should not contain” in the Directive which provides no guidance with respect to exact *de minimis* threshold) limits which could be present, nor the origin of trace amounts of the prohibited materials. Such limits have been described in “ELV” EU Directive 2000/53/EC, Annex II (June 27,2002) with respect to unintentionally introduced metallic impurities: 0.1% limit for Pb, Hg, Cr(+6); 0.01% Cd. These are the limits which we have used for evaluating RoHS compliance of our products.

If any further composition information is necessary concerning the listed product(s), please contact me.

Respectfully yours,

Robert L. Lambert, Jr.
