## DATA SHEET

UNITRONIC ${ }^{\circledR}$ LiHCH

## Application

UNITRONIC ${ }^{\circledR}$ LiHCH is a halogen free, screened data cable for low frequency applications. The cable is designed for fixed installation and for conditional flexible use. It is used in dry and damp interiors but not appropriate for outside usage. The screen provides protection against electromagnetic interferences.
The cable is used for data processing, measurement and control engineering, safety related systems and as electronic cables.
