# Accessories
## ZEW 35/2

Weidmüller's range of products includes end brackets that guarantee a permanent, reliable mounting on the terminal rail and prevent sliding. Versions with and without screws are available. The end brackets include marking options, also for group markers, and also a test plug holder.

## ZEW 35/2

## Accessories

### Blank

**WS markers** are the perfect match for the connectors of the W series. But thanks to their system compatibility the WS tags can also be used with the I series and the Z series. The large areas for printing permit not only long character strings but also multiple lines.
**WS markers** are ideal for labels with long, bespoke character strings. The tried-and-tested MultiCard format means that printing can be carried out with **laser** printers, **PrintJet**, **plotters** or the **MC-Mobilo.**

- Can be fitted in strips or singly
- Markers in proven multicard format

### SchT group marker carrier

The **SchT 5 S** group tag carriers are clipped directly to the TS 32 DIN rail (G-rail) or the TS 35 DIN rail (top-hat rail). It is therefore possible to provide terminal strip labelling irrespective of the terminal and the type of terminal.

**SchT 5** and **SchT 5 S** are fitted with ESO 5, STR 5 protective strips.

The **SchT 7** is a hinged group tag holder for inlay tags that still allows easy access to the clamping screw.

The <B>SchT 7</B> is fitted with ESO 7, STR 7 protective strips or DEK 5.

SchT 9/4 and SchT 14/6 are hinged group tag holders for single dekafix and WS tags, allowing easy access to the clamping screws.

**SchT 9/4** and **SchT 14/6** are fitted with WS or DEK. Inlay tags and protective strips can be found under "Accessories".

### Blank

The **WAD** connector markers can be used with W-series terminals and with the WEW 35/2 and ZEW 35/2 end bracket. These markers are available in standard print with lightning flash, custom print, or blank. The **WAD MultiCard** markers can be printed on with a **PrintJet** printer.
- High quality and resistant printing with PrintJet
- The WAD marker and cover can be used with the W-Series terminals and the WEW 35/2 or ZEW 35/2 end brackets.
- Available as neutral markers, specially printed or standard printed with a lightning bolt symbol
- Simple and quick to fit

## Blank

The **dekafix (DEK)** marker is the universal marker for all conductor and plug-in connectors as well as for electronics mdoules. The system is ideal for small groups of consecutive numbers and covers a large range of ready-printed markers.
Being mounted as strips means that they are quickly clipped on in one operation. The printing is legible with good contrast, and is available in five widths.

- Large selection of ready-to-use markers
- In strips for fast installation
- Connector markers are suitable for all Weidmüller conductor connectors
- Available as blank cards, MultiCard or as cards with standard printing

### General ordering data

## Covers

The VDE standards call for power connection terminals to be covered. For this purpose, Weidmüller can supply yellow warning covers printed with the "lightning flash" symbol. The cover is clipped into the screwdriver slit in the terminal and each one covers a group of four terminals.
- for IDU 1.5N...: IAD 1/4
- for IDU 2.5N...: IAD 2/4

## Accessories
## ZEW 35/2

## Accessories

### Custom printing

**WS markers** are the perfect match for the connectors of the W series. But thanks to their system compatibility the WS tags can also be used with the I series and the Z series. The large areas for printing permit not only long character strings but also multiple lines.

**WS markers** are ideal for labels with long, bespoke character strings. The tried-and-tested MultiCard format means that printing can be carried out with **laser** printers, **PrintJet**, **plotters** or the **MC-Mobilo.**

- Can be fitted in strips or singly
- Markers in proven multicard format

### General ordering data

| Order No. | Type | Version | GTIN (EAN) | Qty. |
|---|---|---|---|---|
| 1635010000 | WS 10/5 MC SDR | Terminal markers, MultiCard, 10 x 5 mm, Polyamide, Colour: White | 4008190456634 | 144 pc(s). |

### With lightning flash

The **WAD** connector markers can be used with W-series terminals and with the WEW 35/2 and ZEW 35/2 end bracket. These markers are available in standard print with lightning flash, custom print, or blank. The **WAD MultiCard** markers can be printed on with a **PrintJet** printer.

- High quality and resistant printing with PrintJet
- The WAD marker and cover can be used with the W-Series terminals and the WEW 35/2 or ZEW 35/2 end brackets.
- Available as neutral markers, specially printed or standard printed with a lightning bolt symbol
- Simple and quick to fit
