3 Tips

3.1 Cleaning the keyboard

CAUTION: Damage may be caused by harsh cleaning agents or liquids in the keyboard

- Do not use solvents such as gasoline or alcohol and scouring agents or scouring sponges for cleaning.
- Prevent liquids from entering the keyboard.
- Do not remove the keycaps of the keyboard.

1 Switch off the PC.

2 Clean the keyboard with a slightly damp cloth and some mild cleaning agent (e.g. dish washing liquid).

3 Dry off the keyboard with a soft, lint-free cloth.

3.2 RSI syndrome

RSI stands for "Repetitive Strain Injury". RSI arises due to small movements continuously repeated over a long period of time.

Typical symptoms are discomfort in the fingers or neck. For further information see: **www.cherry.de/english/service/service-download_rsi.htm**

- Set up your workspace ergonomically.
- Position the keyboard and mouse in such a manner that your upper arms and wrists are outstretched and to the sides of your body.
- Take several short breaks, with stretching exercises if necessary.
- Change your posture often.

9 Certifications

9.1 Federal Communications Commission (FCC) Radio Frequency Interference Statement

Information to the user: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorientate or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
