

# LED3000 RL Accessories

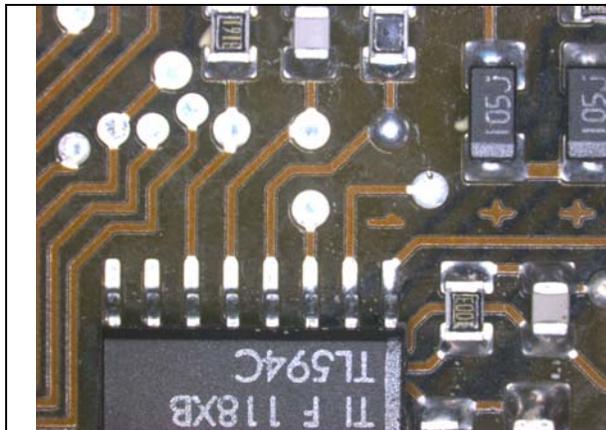

For the Leica LED3000 RL (ring light) there are now following powerful accessories available:

## Diffusor for LED3000 RL

Order number: 10450338

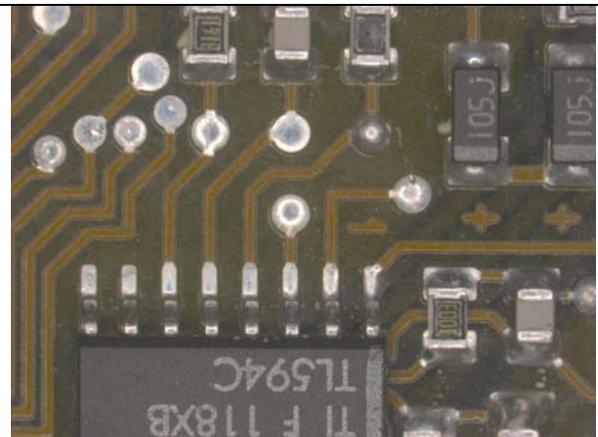

### Highlights:

- Strong reduction of reflections on shiny surfaces
- Special optical design to improve performance
- Comparable light characteristic to fluorescent RL
- Reduce eyestrain
- Easy to attach

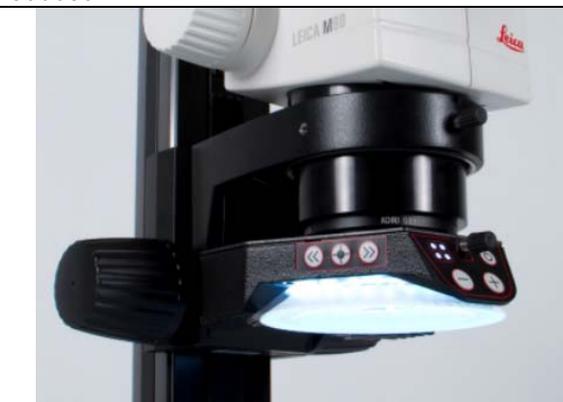

**LED3000 RL**

Shiny surfaces, like solder joints appear very bright

**LED3000 RL with Diffusor**

The reflections at the solder joints are strongly reduced.

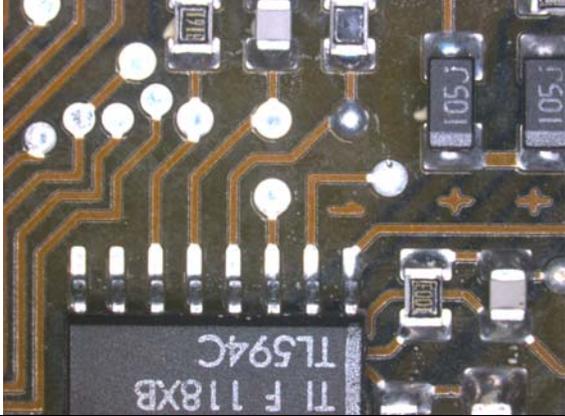

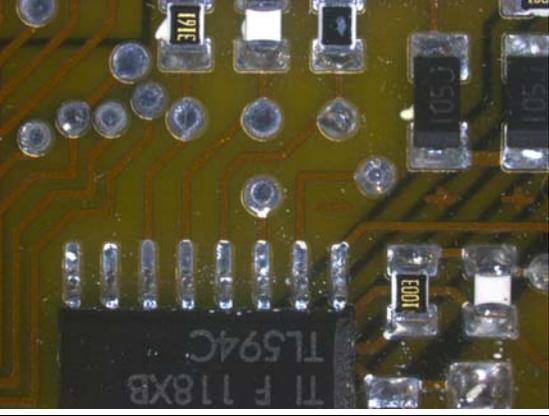

## Polarisation Set for LED3000 RL

Order number: 10450337

### Highlights:

- High quality polarisation set
- Glass sandwich design
- Click stop at crossed polarisation position
- Eliminates glare on shiny surfaces
- Easy to use
- Easy to attach

### Order number overview:

- |          |   |
|----------|---|
| 10450271 | LED3000 RL (ring light)                                   |
| 10450337 | Polarisation Set for LED3000 RL                           |
| 10450338 | Diffusor for LED3000 RL                                   |
| 10450266 | Power supply for LED3000/5000 (for stand alone operation) |
