Article Duster BR

Available sizes  
200ml, 400ml

## Product description / Please note

DUSTER BR is a microscopically clean, moisture- and oil free, flammable compressed gas which is especially developed for application where extremely pure cleaning is required and where liquid solvents are inappropriate. The powerful jet action instantly removes particles from the most inaccessible areas, leaves no residue and is harmless to all materials.

## Application

DUSTER BR removes easily, quickly and safely dust, lint, and oxide particles from all kinds of equipment. Designed and recommended for all types of powerful nonabrasive cleaning of sensitive electronic equipment and components, data processing equipment, personal computers, optical instruments, photographic materials, microscopy and laboratory equipment. Before usage insert extension tube into spray button. To keep the pressure at maximum value press spray button at intervals. When spraying, keep can upright; otherwise its function will be impaired. Caution: Do not use DUSTER BR on components under voltage. Prior to switching on the appliances, allow to evaporate. Do not spray on naked flame or on hot parts. Keep away from sources of ignition. No smoking during the usage.

## Physical Properties

Odor	none
Density at 25°C	0,55 [g/cm <sup>3</sup> ]
Evaporation	complete
Material compatibility	very good
Flashpoint	< 0°C
Pressure	4,8 bar

## Storage / Shelf life

Shelf life is 2 years if stored correctly.  
Package after emptying to be disposed via metal scrap.
