And it has the same renowned, high-precision optics that the MAGLITE® brand has always stood for. But there's a "PLUS" (two, actually): (1) The PRO+® offers new, powerful electronics, driving the state-of-the-art LED light engine to an impressive lumen output at the "high" setting and (2) The PRO+® lets the user choose between two output levels – one for maximum brightness, the other to conserve power.
