

Material Safety Data Sheet CLT-M407S, CLT-M4072S, CLT-M4073S

Revised Date: March.4,2010 Set Up Date: March.4,2010

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

A) Product: Toner Magenta

B) Recommended use of the chemical and restrictions on use

Recommended use:Restrictions on use: None

C) Manufacturer/Supplier/Distributor Information

 \circ Name: Samsung Fine Chemicals Co., Ltd

Address: 190 Yeochun-dong, Nam-gu, Ulsan, Republic of Korea
 Emergency or information contact, Responsible department

Tel: 052-270-6853

Fax:

2. HAZARDS IDENTIFICATION

- A) Physical and Chemical Hazard: There are no significant hazards associated with this product.
- B) Adverse Human Health Effects: There are no significant hazards associated with this product.
- C) Environmental Effects: There are no significant hazards associated with this product.

3. COMPOSITION / INFORMATION ON INGERDIDENTS

General Name	Chemical Name	CAS number	Content (%)
Styrene acrylic resin		Confidential	75~85
Wax		Confidential	5~10
Cyan pigment		Confidential	1~6
Silica		Confidential	1~3

4. FIRST-AID MEASURES

A) Eye contact

Flush with water immediately and see a doctor if irritating.

B) Skin contact

Wash immediately with plenty of water. Get medical attention if irritation develops.

C) Inhalation

Remove from exposure to fresh air and gargle with plenty of water. Remove source of contamination and move individual to fresh air. If symptoms persist, seek medical attention.

D) Ingestion

Rinse out the mouth. Drink one or two glasses of water to dilute. Seek medical treatment if necessary. Do not induce vomiting to rest in a well ventilated area. Never give anything by mouth to an unconscious person.

Material Safety Data Sheet

5. FIRE-FIGHTING MEASUARES

A) Suitable (and unsuitable) extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

B) Extinguishing media: Water (Sprinkle with water), Foam, Powder, CO2 or Dry chemical.

6. ACCIDENTAL RELEASE MEASURES

,	tions, protective equipment and emergency procedures ngestion, eye and skin contact in case of accidental toner release.
B) Environmental pi	recautions and protective procedures
 Atmosphere 	Not available
○ Land	Not available
 Underwater 	Prevent product from entering drains.
C) The methods of	purification and removal
Small spill	
Remove source of	f ignition. Carefully wipe off with paper or wet cloth, avoiding inhalation of fine dust.
 Large spill 	
Remove source of	f ignition and keep unnecessary and unprotected personnel away from area. Wear
	spirator, rubber gloves, goggles. Do not use vacuum cleaner when a large amount is
	ost finely divided organic powders, may create a dust explosion. Fine powders may require
special vacuum fil	ters; damp mopping or washing is preferred. Wipe up remainder with a wet cloth. Sweep,

7. HANDLING AND STORAGE

A) Precautions for safe handling

Never open the toner container. To avoid damage to cartridge and accidental contact with toner, keep out of reach of children. Try not to disperse the particles. Avoid inhalation of dust and contact with eyes. Keep away from excessive heat, sparks and open flames.

B) Conditions for safe storage

Keep the toner container tightly closed and store in a cool, dry and dark place keeping away from fire. Keep away from children and Keep out of reach of children.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

A) Control parameters (as total dust)
OSHA-PEL (LISA): 15mg/m³

OSHA-PEL (USA): 15mg/m³ ACGIH-TLV (USA): 10mg/m³ DFG-MAK (EC): 6mg/m³ Work safe-TWA (Austl.): 10mg/m³

mop or wipe up and contain for salvage or disposal. Avoid dust formation.

B) Appropriate engineering controls

Use in a well ventilated area. Ventilator is not required when used in intended in printer,.

- C) Personal protective equipment
 - Respiratory protection

Not normally required. For large spills, use dust respirator mask during cleanup.

Eye/Face protection

Not normally required. For large spills, use safety goggles during cleanup.

Skin protection

Not normally required. For large spills, use rubber gloves during cleanup.

- Other: For use other than normal customer-operating procedures (such as in bulk toner processing facilities), goggles and respirators may be required.
- D) Hygiene Measures: Wash hands after handling

9. PHYSICAL AND CHEMICAL PROPERTIES

A) Appearance Magenta Powder B) Odor Slightly plastic odor C) Odor threshold Not available Ha (D Not applicable E) Melting point/Freezing point Not available F) Initial boiling point and boiling range Not applicable G) Flashing point Not applicable H) Evaporation rate Not applicable I) Flammability (solid, gas) Not available J) Upper/lower flammability or explosive limits Not available K) Vapor pressure Not applicable L) Solubility (water) Negligible M) Vapor density Not applicable N) Relative density Not available O) Partition coefficient(n-octanol/water) Not available P) Auto-ignition temperature Not available Q) Decomposition temperature Not available R) Viscosity Not available S) Formula mass Not available

10. REACTIVITY AND STABILITY

A) Chemical stability

This product is stable under normal use.

B) Possibility of hazardous reactions

Hazardous polymerization does not occur.

- C) Conditions to avoid (e.g. static discharge, shock or vibration, etc.) Strong oxidizing agents
- D) Incompatibility with various substances

Not available

E) Hazardous decomposition products

Carbon monoxide, Carbon dioxide, unidentified organics. During a fire, toxic gases may be generated by thermal decomposition or combustion.

Not classified

Not available

11. TOXICOLOGICAL INFORMATION

A) Information on the likely routes of exposur B) Delayed, acute and chronic toxic effect for	e: Eye and skin contact, inhalation, ingestion short and long term exposure
Acute toxicity (Oral)	Rat ATEmix > 1130.5mg/kg
, ,	Rat LD50 > 5000mg/kg
	Practically non-toxic
 Acute toxicity (Dermal) 	Rat ATEmix > 1124.3mg/kg
	Rabbit LC50 > 5000mg/kg
	Practically non-toxic
Acute toxicity (Inhalation: Gas)	Not applicable
 Acute toxicity (Inhalation: Vapor) 	Not available
 Skin Corrosion/ Irritation 	Not irritating-human
 Serious Eye Damage/ Irritation 	Not available
○ Skin Sensitization	Not a sensitizer
 Carcinogenicity 	Not classified
Mutagenicity	Ames Assay: Negative

12. ECOLOGICAL INFORMATION

Reproductive toxicity

Aspiration Hazard

Material Safety Data Sheet

A) Aquatic and terrestrial ecotoxicity

B) Degradability

StabilityStable

C) Bioaccumulative potential A relevant bioaccumulation of this substance is not

Not available

expected

Biodegradable D) Mobility in soil E) Other adverse effects Not available Not available

13. DISPOSAL CONSIDERATIONS

A) Disposal method

Do not put toner or toner container into fire; heated toner may cause severe burns. Do not shred a toner container, unless dust-explosion preventing measures are taken. Finely dispersed particles form explosive mixtures in air. Disposal should be subject to federal, state and local laws.

B) Disposal precaution

Do not incinerate toner and toner containers. Any disposal practice should be done under conditions which meet local, state and federal laws and regulations relating to waste (contact local or state environmental agency for specific rules).

14. TRANSPORTATION INFORMATION

This is not classified as dangerous goods according to international transport regulations.

Use precaution during transport in order to prevent accidental spill. Not dangerous cargo. Keep separated from foodstuffs.

15. REGULATORY INFORMATION

Δ)	LIS	Federal	Regulation
\neg	-	i cuciai	reduiation

- OSHA Hazard Communication Standard, 29CFR 1910.1200
 - Not regulated.
- Toxic Substance Control Act (TSCA)
 - All components of these toners have been manufactured in compliance with TSCA.
- O RCRA (40 CFR 261)
 - Product or components are not listed.
- CERCLA/SARA Information
 - -Not regulated.
- NTP Annual Report on Carcinogens
 - Not listed as an NTP carcinogen.
- California Proposition 65
 - Neither toner nor any of the components are listed as chemicals known to the State of California to cause cancer or reproductive system effects.

B) European Regulation

○ Label information according to the Directive 67/548/EEC and 1999/45/ECC.

Symbol and indication: Not required R-Phrase: Not required S-Phrase: Not required

C) Canada

- Controlled Products Regulations
 - -This product has been classified in accordance with the hazard criteria of CPR.
- Workplace Hazardous Materials Information System.
 - -No toxicology information available.

 - The information and recommendation were prepared on basis of the information we could obtain, however, any warranty shall not be given regarding the data contained and the assessment of hazards and toxicity. The information and recommendations are offered for the user's consideration and examination. Before use, please confirm not only the hazards and toxicity information but also the laws and regulations of organization, area and country where the products are to be used, which shall be given the first priority. Some information may be added afterwards. It is the user's responsibility to satisfy itself that the product is suitable for the intended use. Except to the extent required by law, re-publication or retransmission of this document, in whole or in part, is not permitted. Safe usage conditions shall be set up on each user's own responsibility.
