# DIGITUS<sup>®</sup> HDMI SWITCH SPLITTER

## Dear customer

Thank you for purchasing this product. For optimum performance and safety, please read these instructions carefully before connecting, operating or adjusting this product. Please keep this manual for future reference.

## 1.0 INTRODUCTION

The HDMI Matrix Switch routes high definition video in multiple resolutions up to 1080p plus multichannel digital audio from any of the four HDMI sources to two displays. Two outputs give you the choices of sending high definition audio and video signals up to two displays. Any four to any two matrix switching allows for maximum versatility for integrated systems. It eliminates the needing of disconnects and reconnects sources to a display equipped with one input. It works with HD-DVD players, Blue Ray DVD, PS3, and satellite set top boxes that connect to two HDMI displays. Every source is accessible at all times by any display by selecting it with an IR remote or the touch buttons.

## 1.1 FEATURES

This HDMI Matrix Switch has many features that enable it to perform in a superior manner. Among those features you will find:

- Multi-switching methods: intelligent, IR remote or by touch buttons
- Switch easily between any four HDMI sources
