UNITRONIC® EtherLine-H-H CAT. 5e 4 x 2 x 24AWG	valid from : 17.06.2003

Application

UNITRONIC® EtherLine-H-H CAT. 5e 4 x 2 x 24AWG is a halogen free **CATEGORY 5e high speed data transmission cable** suitable for application in the industrial environments to connect the (FAST-) ETHERNET network with the field bus level. It enables a through going communication from sensor–actuator–level to Internet. This data cable meets the requirements of Standards ISO/IEC 11801 second edition, EN 50173, EN 50288-2-1 as well as EIA/TIA-568B. The high quality double screening ensures a high security during data transmission in areas with electromagnetic fields. The outer sheath is easily strippable from the inner sheath; with the inner sheath is the cable RJ 45 compatible.

The cable is designed for stationary applications in dry and wet rooms.
