

DATA SHEET	52010400
SKINDICHT® SHVE	valid from : 13.06.2006

The SKINDICHT® SHVE is an easy-to-assemble earthing gland for screened cables. With the special earthing bush the cable screen is connected safely. A special neoprene conical seal prevents the penetration of dust, moisture and oil. Tapered special sealing elements ensure high strain relief complied with good compressive strength at the insert when properly used. To prevent cables from lacing the sealing space is large. This guarantees long life and compliance with the highest standards.

The gland make-up consists of:

Gland body	nickel-plated brass
Cap	nickel-plated brass
Conical seal	elastomer
Pressure cone	nickel-plated brass
Earthing bush	bright brass
O – ring	elastomer

Technical features:

Connecting thread:	PG 9 - PG 29 in accordance to DIN 40 430
IP protection:	IP 65 to IP 68, test in acc. to EN 60 529
Temperature range:	- 20°C to + 80°C

If required there is a report available regarding an EMV test of 10 KHz to 400 MHz frequency range.

For more information please see our current catalogue.
Please do not hesitate to contact our laboratory if there are any questions regarding resistance against aggressive agents and special oil.
