Play music

1 device connected to BTR-1500M

You can play the music now. Just play music on your device as you normally would and the sound will come out from your stereo system.

2 or 3 devices connected to BTR-1500M

Those who play the music lately, will take the right to play(it means that the music is came from the last device which is playing now)

Note: the effective range of BTR-1500M is 33 feet(10M).

Reconnecting your device

If you move out of range or turn off the Bluetooth feature on you iPad/iPhone/iPod touch or Smartphone,BTR-1500M will disconnected from your device. To reconnect, simply open the Bluetooth manager and tap on the "Music Receiver", then you do not need to input PIN again, the connection will be done automatically.

Adding a new phone or tablet：

If you want to switch from one device to another, please follow these steps

1. End the existing Bluetooth connection with connected device.
2. The BTR-1500M can now be connected with another device such as iPad/iPod/iPhone or Smartphone or tablet.
3. Follow the section "Pairing the BTR-1500M" to connect a new device.

Out of range or lost signal:

When the paired phone or device away from receiver (33 feet) or there is something blocking the Bluetooth signal. The LED light will go off, it means the connection between device and BTR-1500M is lost. To avoid a lost connection:

1. Move the music device back into range (within 33 feet), and make sure there's a clear line of sight and there are no obstructions between BTR-1500M and device.
2. Within 15 seconds, the connection will automatically be reestablished and LED will turn on
3. If the connection is lost for more than 15 seconds, you need to reconnect the device and BTR-1500M again. Please follow the "Reconnect Your Device" section.

Indication of LED
