

5- to 11-Pin MHL Adapter

Convert 5-pin device to newer 11-pin, MHL Adapter

Part No.: [151481](#)

The Manhattan 5- to 11-Pin MHL Adapter converts your 5-pin HDTV MHL cable or adapter to work with 11-pin MHL Micro-USB devices to mirror their display to a TV, monitor or projector. To use, simply insert the Micro-USB end of the MHL cable into the 5-pin female port of the adapter, then plug the adapter's 11-pin connector into your smartphone. Once connected, this adapter supports video resolution to 1080p, 3-D video and HDCP media protection, and eight channels of audio with 7.1 surround sound.

Features:

- Converts 5-pin Micro-USB to 11-pin Micro-USB
- Easy plug-and-play installation
- Designed for use with mobile devices featuring MHL technology
- Requires no external power or app
- Three-Year Warranty
