SuperSpeed USB Active Extension Cable

A Male / A Female, 5 m (16 ft.)

Part No.: 150712

Easily overcome distance limitations to connect USB devices.
Use the Manhattan SuperSpeed USB Active Extension Cable to connect a computer USB port to a USB device almost anywhere in the room. Extend 5 meters more to the existing connection without signal loss. Manhattan SuperSpeed USB Active Extension Cable with built-in repeater is fully compliant with USB 3.0 and earlier specifications to help devices operate at maximum performance levels. Plug-and-play capability, Windows/7/8/Macintosh versatility and no external power or driver requirements help provide greater flexibility in computer and peripheral placement and office layout.

Features:

- Extends and boosts the signal to any USB device – supports data transfer speeds up to 5 Gbps
- Built-in repeater helps maintain USB 3.0 signal quality, electrical and timing specifications
- Extends the connections to enclosures and other peripherals up to 5 m (16 ft.) without signal loss
- Plug and play; Windows/7/8 and Mac compatible; bus power requires no external power supply
- Lifetime Warranty

Specifications:

Standards and Certifications
• USB 3.0
• CE
• RoHS
• WEEE

Electrical:
USB power output: 5 V ±5% / 269 mA

General
• Throughput: 5 Gbps
• Bus powered
• All USB-supported operating systems

Connectors
• USB 3.0 Standard-A male
• USB 3.0 Standard-A female
• Nickel plated
• Molded PVC boot

Cable
• 28 AWG conductors
• Shielded
• Withstanding voltage: 300 V DC 10 ms
• Insulation resistance: 5 MOhm
• Contact resistance: 10 Ohm
• Thermal plastic casing

Package Contents
• SuperSpeed USB Active Extension Cable
