The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency bank "U" allows the user to store individual frequencies which are freely selectable in 25-kHz steps. Therefore these frequencies may not be intermodulation-free.

From 01 January 2013 in the UK, only 863 - 865 MHz is available. For more details contact www.pmse.co.uk

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U" (ew 100: bank "U", ew 300/ew 500: banks "U1"-"U6") allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

Radio Microphone EW100/300/500 G3 Range B (626-668 MHz Ch40-Ch45)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

Table with columns for frequency banks (Bank 1 to Bank 20) and rows for channel numbers (1 to 32). Includes frequency values for each bank and channel.

Table with columns for Country, Usergroup, and Notes. Notes specify 'UK Coordinated Site Specific Licence Required' and 'geographical restrictions apply'.

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U" (ew 100: bank "U", ew 300/ew 500: banks "U1"-"U6") allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

Radio Microphone EW100/300/500 G3 Range C (734-776 MHz Ch54-Ch59)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

Table with columns for frequency banks (Bank 1 to Bank 20) and rows for usergroups (EW 100 1-12, EW 300 1-24, EW 500 1-32). Includes a 'Country Usergroup Notes' column at the bottom.

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U" (ew 100: bank "U", ew 300/ew 500: banks "U1"-"U6") allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

Radio Microphone EW100/300/500 G3 Range E (823-865 MHz Ch65-Ch70)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U" (ew 100: bank "U", ew 300/ew 500: banks "U1"-"U6") allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

From 01 January 2013 in the UK, only 863 MHz - 865 MHz is available. For more details contact www.pmse.co.uk

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U" (ew 100: bank "U", ew 300/ew 500: banks "U1"-"U6") allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

Radio Microphone ew 100 G3-1G8 (1785-1800 MHz)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U1"-"U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

Radio Microphone 2000 BW (626-698 MHz Ch40-Ch49)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

Summary table of frequency banks: Bank 1 (622-630 CH 40), Bank 2 (630-638 CH 41), Bank 3 (638-646 CH 42), Bank 4 (646-654 CH 43), Bank 5 (654-662 CH 44), Bank 6 (662-670 CH 45), Bank 7 (670-678 CH 46), Bank 8 (678-686 CH 47), Bank 9 (686-694 CH 48), Bank 10 (694-702 CH 49)

Main table with 20 columns (Bank 1 to Bank 20) and 64 rows of frequency values for each bank.

Table with 21 columns: Country, Usergroup, Notes, and 20 UK Coordinated Site Specific Licence entries with geographical restrictions apply.

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U1"- "U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

Radio Microphone 2000 DW (790-856 MHz Ch61-Ch70)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

Legend table showing frequency ranges for channels CH 61 through CH 69 and Licence Exempt.

Main frequency table with columns for Bank 1 to Bank 20 and rows for channels 1 to 64.

Country Usergroup Notes table with columns for UK and various channel notes regarding frequency usage.

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U1"-"U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

From 2012 in the UK, only 863 MHz - 865 MHz will be available. For more details contact www.pmse.co.uk

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

Radio Microphone 2000 GW (558-626 MHz Ch32-Ch40)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

Summary table showing frequency banks: 558-566 CH 32, 566-574 CH 33, 574-582 CH 34, 582-590 CH 35, 590-598 CH 36, 598-606 CH 37, 606-614 CH 38, 614-622 CH 39, 622-630 CH 40.

Main frequency table with columns for Bank 1 through Bank 20 and rows for frequency channels 1 through 64.

Country Usergroup Notes table with columns for UK Coordinated Site Specific Licence Required and geographical restrictions apply.

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed. The frequency banks "U1"- "U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free. Channels 31-37 - (600 MHz band) Ofcom has announced that new services will be launched in these channels but that PMSE will continue to have access. Longer term decisions about access to these channels will be made during the 2015 World Radio Conference. In the UK, frequencies between 606 MHz - 614 MHz require a Shared Ch.38 licence. In the UK, frequencies between 614 MHz - 626 MHz require a Fixed Site Coordinated Licence. For more details contact www.pmse.co.uk Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

Radio Microphone 2000 GBW (606-678 MHz Ch38-Ch46)

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U1"-"U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

Channels 31-37 - (600 MHz band) Ofcom has announced that new services will be launched in these channels but that PMSE will continue to have access. Longer term decisions about access to these channels will be made during the 2015 World Radio Conference. In the UK, frequencies between 606 MHz - 614 MHz require a Shared Ch.38 licence. In the UK, frequencies between 614 MHz - 638 MHz require a Fixed Site Coordinated Licence. For more details contact www.pmse.co.uk

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U1"- "U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

In the UK, frequencies between 606 MHz - 614 MHz require a Shared Ch.38 licence. In the UK, frequencies between 614 MHz - 790 MHz require a Fixed Site Coordinated Licence. For more details contact www.pmse.co.uk

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency bank U allows the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

In the UK frequencies in the range 776-790 MHz require a Fixed Site Coordinated Licence. 790-862MHz must not be used in the UK. 863-865 MHz is licence exempt.

Licences and licensing information can be obtained in the UK via Arqiva at www.pmse.co.uk

Radio Microphone SK 5212 & SKM 5200 Range N-GB (606-790 MHz Ch38-Ch61)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS
