

# Lighting Kit Super Illu One

600300 • 4/2016

The Lighting Kit Super Illu One brings bright light to indoor rooms such as garden huts, garages etc and is also suitable for outdoor illumination where there is a location with a roof. Thanks to the LED lighting unit the electricity demand is very low. The kit is served by a solar module, so no extra electricity is necessary. The kit includes the solar module, LED lighting unit, module support structure for the easy installation of the solar module and installation cabling.

Please note: The battery is not included in the kit!
