3. Status LED

## Hardware Setup

### I/O Board Installation

1. (Optional) Power off the Modular Matrix switch.  
**Note:** The Input/Output Boards are hot swappable.
2. On the rear of the VM1600 unscrew the two phillips head screws and remove a back panel
3. Slide the I/O board into the open slot on the VM1600 until it secures in place.  
**Note:** The upper four slots are for input boards; the lower four slots are for output boards.
4. Tighten the screws on the I/O board to fasten it to the Modular Matrix switch, until its secure.
5. Repeat the steps if you are installing more I/O boards.
6. Power on the Modular Matrix switch.

## Installation

1. Connect your A/V input source device to the DVI / audio input port of the VM7604.
2. Connect your video display device to the DVI output port of the VM8604.
3. Connect your speakers / audio output device to the Audio output port of the VM8604.
4. Power on the VM1600 and all devices in the installation
