

Quick reference

MA10241-pro series thermo- hygrometer

MOBILE-ALERTS Sensor

This is a sensor for the "MOBILE-ALERTS" system, it can be used with this system only. To use the sensor you need a MOBILE-ALERTS gateway.

Sensor set up

Unscrew and open the battery compartment of the temperature sensor, put in 2x AA batteries with the correct polarity, screw the lid on again.

Add Sensor

Open the app, dashboard is displayed. Tap "Add new sensor" and scan the QR code on the back of the temperature sensor. Then set a name for the sensor.

Specifications

Batteries: 2 x mignon (LR06, AA) alkaline

Battery life: approx. 2 years

Measuring range temperature: - 39.9°C to +59.9°C

Accuracy: 0,5 °C

Measuring range humidity: 1-99%

Accuracy: 3%

Measurement intervals: 7 minutes

Transmission range: 100m (open area)

More information and detailed instructions can be found in the app at "Info" or at www.mobile-alerts.eu

Techno Trade Import Export GmbH, hereby declares that the devices MA 10241 are in compliance with the essential requirements of directive 1999/5 / EC.

The declaration of Conformity can be found at: www.mobile-alerts.eu/technoline/doc

Old batteries do not belong into general household waste. You are obliged to return used batteries to your vendor or collection points.

Electrical devices have to be disposed separately from the general household waste. Take your old electronics to your local waste collection point or recycling centre.
