

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier	
Trade name or designation of the mixture	Graphite Assembly Paste
Registration number	-
Synonyms	None.
Product code	BDS000077AE
Issue date	13-January-2023
Version number	1.0
Revision date	13-January-2023
1.2. Relevant identified uses of the	ne substance or mixture and uses advised against
Identified uses	Lubricants
Uses advised against	None known.
1.3. Details of the supplier of the	safety data sheet
Company name	CRC Industries Europe bv
Address	Touwslagerstraat 1
	9240 Zele
	Belgium
Telephone	+32(0)52/45.60.11
Fax	+32(0)52/45.00.34
E-mail	hse@crcind.com
Website	www.crcind.com
1.4. Emergency telephone number	Tel.: +32(0)52/45.60.11 (office hours: 9-17h CET)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Physical hazards			
Aerosols		Category 1	H222 - Extremely flammable aerosol. H229 - Pressurized container: May burst if heated.
Health hazards			
Skin corrosion/irritation		Category 2	H315 - Causes skin irritation.
Specific target organ toxic exposure	city - single	Category 3 narcotic effects	H336 - May cause drowsiness or dizziness.
Environmental hazards			
Hazardous to the aquatic long-term aquatic hazard	environment,	Category 2	H411 - Toxic to aquatic life with long lasting effects.
2.2. Label elements			
Label according to Regulation (E	EC) No. 1272/200	8 as amended	
Contains:	Hydrocarbons, (C6-C7, n-alkanes,isoalkanes,cyclics,< 5	% n-hexane
Hazard pictograms			
Signal word	Danger		
Hazard statements			
H222	Extremely flamr	nable aerosol.	
H229	Pressurized cor	ntainer: May burst if heated.	

H315	Causes skin irritation.
H336	May cause drowsiness or dizziness.
H411	Toxic to aquatic life with long lasting effects.
Precautionary statements	
Prevention	
P102	Keep out of reach of children.
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P211	Do not spray on an open flame or other ignition source.
P251	Do not pierce or burn, even after use.
P261	Avoid breathing mist/vapours.
P280	Wear protective gloves.
Response	Not assigned.
Storage	
P410 + P412	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
Disposal	
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.
Supplemental label information	None.
2.3. Other hazards	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII. The mixture does not contain any substances included in the list established in accordance with REACH Article 59(1) for having endocrine disrupting properties at a concentration equal to or greater than 0.1% by weight.
SECTION 3: Composition/i	nformation on ingredients

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
Hydrocarbons, C6-C7, n-alkanes,isoalkanes,cyclics,< 5% n-hexane	10 - 25	- 921-024-6	01-2119475514-35	-	
Classification:		2;H225, Skin Irrit. 2;F quatic Chronic 2;H41	I315, STOT SE 3;H336, As 1	p. Tox.	
Distillates (petroleum), hydrotreated light naphthenic; Baseoil — unspecified [complex combination of hydrocarbons obtained by treating a petroleum fraction with hydrogen in the presence of a catalyst. It consists of hydrocarbons having carbon numbers pr	5 - 10	64742-53-6 265-156-6	01-2119480375-34	649-466-00-2	
Classification:	Asp. Tox.	1;H304			
ist of abbreviations and symbols that r ATE: Acute toxicity estimate. M: M-factor vPvB: very persistent and very bioaccu PBT: persistent, bioaccumulative and #: This substance has been assigned	umulative s	ubstance. ance.	s).		

Note L - The harmonized classification as a carcinogen does not apply because the substance contains less than 3 % DMSO extractable material as measured by IP 346.

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments

The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures

General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.	
4.1. Description of first aid meas	ures	
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison centre or doctor/physician if you feel unwell.	
Skin contact	Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.	
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.	
Ingestion	In the unlikely event of swallowing contact a physician or poison control centre. Rinse mouth.	

4.2. Most important symptoms		
and effects, both acute and		
delayed		

May cause drowsiness or dizziness. Headache. Nausea, vomiting. Skin irritation. May cause redness and pain.

4.3. Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards	Extremely flammable aerosol.
5.1. Extinguishing media Suitable extinguishing	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
media Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from the substance or mixture	Contents under pressure. Pressurised container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.
5.3. Advice for firefighters Special protective equipment for firefighters	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Special fire fighting procedures	Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapour pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials. In the event of fire and/or explosion do not breathe fumes.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Avoid breathing mist/vapours. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Do not touch or walk through spilled material.
For emergency responders	Keep unnecessary personnel away. Ventilate closed spaces before entering them. Avoid breathing mist/vapours. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
6.2. Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil etc) away from spilled material. The product is immiscible with water and will spread on the water surface. Prevent product from entering drains. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling and storage

7.1. Precautions for safe handling	Pressurised container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Avoid breathing mist/vapours. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.		
7.2. Conditions for safe storage, including any incompatibilities	Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Store away from incompatible materials (see Section 10 of the SDS). Storage class (TRGS 510): 2B (Aerosol dispensers and lighters)		
7.3. Specific end use(s)	Observe industrial sector guidance on best practices.		
SECTION 8: Exposure controls/personal protection			

8.1. Control parameters **Occupational exposure limits** No exposure limits noted for ingredient(s).

Biological limit values No biological exposure limits noted for the ingredient(s).

Derived no effect levels (DNI	ELs)			
General population				
Components		Value	Assessment factor	Notes

- Other	Wear approp	riate chemical resistant clot	thing.	
Respiratory protection		In case of insufficient ventilation, wear suitable respiratory equipment. Chemical respirator with organic vapour cartridge and full facepiece. (Filter type A)		
Thermal hazards	Wear approp	riate thermal protective clot	hing, when necessary.	
łygiene measures	after handling	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.		
Environmental exposure controls	from ventilati requirements	Inform appropriate managerial or supervisory personnel of all environmental releases. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Fume scrubbers, filters or engineering modifications to the process equipment may be necessary to reduce emissions to acceptable levels.		

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Aerosol.
Colour	Black.

Odour	Characteristic odor.		
Odour threshold	Not available.		
рН	Not applicable.		
Melting point/freezing point	Not available.		
Initial boiling point and boiling range	60 °C (140 °F) estimated		
Flash point	-35.0 °C (-31.0 °F) Closed cup		
Evaporation rate	Not applicable.		
Flammability (solid, gas)	Not available.		
Upper/lower flammability or exp	losive limits		
Explosive limit - lower (%)	8 % estimated		
Explosive limit – upper (%)	0.9 % estimated		
Vapour pressure	Not available.		
Vapour density	Not available.		
Relative density	0.89 g/cm3 at 20°C		
Solubility(ies)			
Solubility (water)	Insoluble in water		
Partition coefficient (n-octanol/water)	Not applicable.		
Auto-ignition temperature	> 200 °C (> 392 °F)		
Decomposition temperature	Not available.		
Viscosity	Not available.		
Explosive properties	Not explosive.		
Oxidising properties	Not oxidising.		
9.2. Other information			
VOC	474 g/l		
SECTION 10: Stability and reactivity			

10.1. ReactivityThe product is stable and non-reactive under normal conditions of use, storage and transport.10.2. Chemical stabilityMaterial is stable under normal conditions.10.3. Possibility of hazardous
reactionsNo dangerous reaction known under conditions of normal use.10.4. Conditions to avoidAvoid high temperatures.10.5. Incompatible materialsChlorine.10.6. Hazardous
decomposition productsCarbon oxides.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.			
Information on likely routes of exposure				
Inhalation	May cause drowsiness or dizziness. Headache. Nau harmful.	isea, vomiting. Prolonged inhalation may be		
Skin contact	Causes skin irritation.			
Eye contact	Direct contact with eyes may cause temporary irritation	ion.		
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.			
Symptoms	May cause drowsiness or dizziness. Headache. Nausea, vomiting. Skin irritation. May cause redness and pain.			
11.1. Information on toxicological effects				
Acute toxicity	Based on available data, the classification criteria are not met.			
Components	Species	Test Results		
Hydrocarbons, C6-C7, n-alkanes,isoalkanes,cyclics,< 5% n-hexane				
Acute				
Dermal				
LD50	Rat	2920 mg/kg bw/day, 24 h		

Components	Species			Test Results
Inhalation				
LC50	Rat			25200 mg/m³, 4 h
Oral				
LD50	Rat			5840 mg/kg bw/day
Skin corrosion/irritation	Causes skin i	rritation.		
Serious eye damage/eye irritation	Direct contac	t with eyes may o	cause temporary irritatio	n.
Respiratory sensitisation	Based on available data, the classification criteria are not met.			
Skin sensitisation	Based on ava	ailable data, the o	classification criteria are	not met.
Germ cell mutagenicity	Based on ava	Based on available data, the classification criteria are not met.		not met.
Carcinogenicity	Based on ava	Based on available data, the classification criteria are not met.		
IARC Monographs. Overall	Evaluation of C	Carcinogenicity		
Distillates (petroleum), hy Baseoil — unspecified [o hydrocarbons obtained b with hydrogen in the pres hydrocarbons having car (CAS 64742-53-6)	complex combin y treating a petr sence of a cataly	ation of oleum fraction /st. It consists of		o carcinogenicity to humans.
Reproductive toxicity	Based on ava	Based on available data, the classification criteria are not met.		
Specific target organ toxicity - single exposure	May cause dr	owsiness or dizz	ziness.	
Specific target organ toxicity - repeated exposure	Based on ava	ailable data, the c	classification criteria are	not met.
Aspiration hazard	Not likely, due to the form of the product.			
Mixture versus substance information	Not available			
SECTION 12: Ecological in	nformation			
12.1. Toxicity		tic life with long l	lasting effects.	
Components		Species	C C	Test Results
Hydrocarbons, C6-C7, n-alkanes,i	soalkanes,cycli	cs,< 5% n-hexan	e	
Aquatic				
Acute				
Algae	EC50	Algae		> 30 - < 100 mg/l, 72 h
Crustacea	EC50	Daphnia		3 mg/l, 48 h
Fish	LC50	Fish		11.4 mg/l, 96 h

12.2. Persistence and No data is available on the degradability of any ingredients in the mixture.

degradability	
12.3. Bioaccumulative potential	No data available.
Partition coefficient n-octanol/water (log Kow)	Not available.
Bioconcentration factor (BCF)	Not available.
12.4. Mobility in soil	No data available.
12.5. Results of PBT and vPvB assessment	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII.
12.6. Other adverse effects	The product contains volatile organic compounds which have a photochemical ozone creation potential. GWP: 2

SECTION 13: Disposal considerations

13.1. Waste treatment methods	
Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.

EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company. Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents **Disposal methods/information** under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. Dispose in accordance with all applicable regulations. **Special precautions SECTION 14: Transport information** ADR 14.1. UN number UN1950 AEROSOLS, flammable 14.2. UN proper shipping name 14.3. SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Retained direct EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended Not listed.

Regulation (EU) 2019/1021 On persistent organic pollutants (recast), as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA Not listed.

Authorisations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended Not listed.

Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended

Distillates (petroleum), hydrotreated light naphthenic; Baseoil — unspecified [complex combination of hydrocarbons obtained by treating a petroleum fraction with hydrogen in the presence of a catalyst. It consists of hydrocarbons having carbon numbers pr (CAS 64742-53-6)

Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended

Not listed.

Other regulations

This product is classified and labelled in accordance with the retained CLP Regulation (EC) No 1272/2008, as amended for Great Britain. This Safety Data Sheet is compiled in accordance with REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758.

ADN: European Agreement Concerning the International Carriage of Dangerous Goods by Inland

Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
