

1. General description

General long term lubrication of metal friction points. Water resistant and usable over a wide temperature range.

2. Features

- Sprays like an oil but sets like a grease, with white colour for easy visual inspection of the film coverage.
- Contains PTFE for extra lubricity.
- Excellent water resistance.
- Provides long lasting lubrication.
- Does not run or drip off.
- Protects metals and alloys.

3. Applications

- Cleaning mechanical parts.
- Bearings.
- Cables.
- Guide rails.
- Hinges.

4. Directions

- Shake well before use.
- Shake until the agitator ball moves freely in the can.
- Use extension tube for more precise application.
- Do not mix with other products.
- Do not use on energized equipment.
- Use only with adequate ventilation.
- **A safety data sheet (MSDS) according to EC Regulation N° 1907/2006 Art.31 and amendments is available for all CRC products.**

5. Typical product data (without propellant)

Appearance

Paste.
