LIPO Charger LA-USB
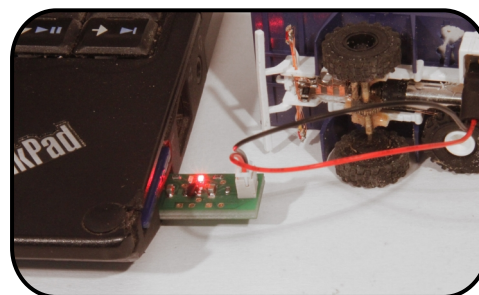

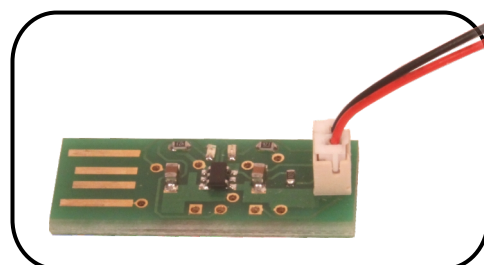

Item no. **72658**

Conrad No. **1534260**

### USB charger for single-cell LiPo batteries

We developed this practical charger for charging small LiPo batteries. Simply plug into a laptop, USB adaptor or even a power bank and charge single-cell LiPo batteries. The battery cannot be overcharged in the process.

The initial charging current is 100mA and automatically decreases towards the end of the charging cycle. This universal charger is suitable for our small 50 mAh batteries as well as for our large 350 mAh batteries. Only the charging time changes with the battery type.

- The red LED indicates the charging progress
- When the green LED also lights up the battery is fully charged

DISPLAY:

Battery full   Operating / Charging

TECHNICAL DATA:

Dimensions:	L 12.5 x W 31 x H 8 mm
Input:	4.4 – 6 V max. 100 mA
Output: max.	4.2 V max. 100 mA
