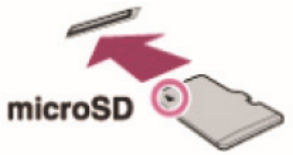
Please read carefully before using

Inserting MicroSD memory cards

Follow these steps to insert a microSD card.
Make sure to unplug ednet. Smart Memory from your device before adding or removing a MicroSD card.

Locate the MicroSD memory card slot.
Hold the MicroSD memory card with the arrow pointing toward the slot and carefully slide it into the slot until it clicks into place.



Place the memory card into the correct section of the tray, with the proper orientation.

When inserting the MicroSD card, make sure the metallic contacts face down.

Insert the card until it clicks and locks into place. To release the card, push and release it, then pull it out.

NOTE:
Inserting a MicroSD memory card incorrectly may damage the MicroSD slot.
Please refer to the manual that came with your MicroSD card for more information.

Correct Position
Metallic contacts face Down

Incorrect Position
Metallic contacts face up

Removable memory by plugging in MicroSD Card, Supports up to 256 GB

Transfer data across all platforms

Save space by offloading files from your device.

With both Lightning and USB 3.1-Gen 1 connectors, this high-speed flash drive makes it easy to move files on the go, so you have extra space to store more of the content you crave.

Move files at USB 3.1 Gen 1 speeds.
Powered by USB 3.1 Gen 1 performance, Smart Memory provides read speeds up to 95MB/s**. And for added versatility, it's backwards compatible with USB 2.0 devices.
