

## **SOLAR-G** **WATERPROOF** **RUGGED** **SOLAR** **CHARGER**

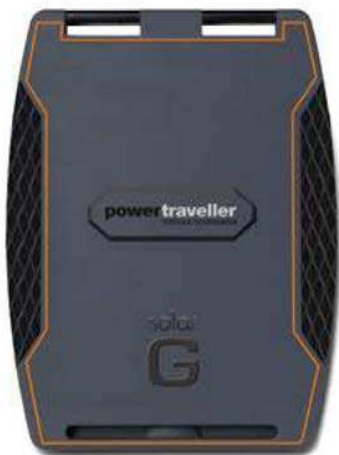

The solar-g is a tough, durable 10 Watt solar panel with both 20V DC and 5V USB outputs which are capable of charging netbooks, tablets, SLR cameras, smartphones, GPS systems and much more.

Its water-resistant casing means it can withstand water splashes/light rain and the clam-shell design protects the panels when not in use, also making it incredibly compact.

Combine with the power-g for the complete portable power solution.

### **Box dimensions:**

300 x 227 x 62mm (L\*H\*W)

### Specifications

- 10 Watt solar panel
- Output: 5V 2A USB and 20V DC
- Water resistant
- Clamshell design
