

How to store the battery

Store the battery in a cool dry place. Avoid storing the battery fully discharged for any longer period of time. Charge the internal battery at least once every 6 months to prevent excessive internal charging.

Battery Life time

The lifetime of the battery is limited. The capacity will drop progressively with use and age of cell. The battery lifetime can vary substantially depending on storage, operation condition and exposure to unsuitable environmental conditions.

Attention

- Batteries with info / data systems or any other electronic data exchange system must be handled with caution
- Goeke Intermedia GmbH does not accept any liability for damage caused by incorrect handling

Caution

- Keep all contacts clean and dry
- Do not force down any of the contacts
- Do not short circuit contacts
- Never store batteries connected to the charger for an extensive period of time
- Do not expose to excessive heat or naked flame
- Do not leave the battery in the trunk or dashboard of a vehicle. Over-heating can result in leaking, fire or explosion
- The battery while on charge or in use should never increase above 60°C/140°F. If high temperature occurs, discontinue using and stop charging immediately
- Do not expose the battery to excessive temperature (below 0°C or above 40°F) or strong direct sunlight
- Do not throw the battery in fire
- Do not place the battery in microwave, cooker or high pressure container
- Do not dismantle or carry out any alterations to the product
- Dispose of battery in accordance with appropriate regulations

Limited Warranty Statement

The warranty period begins with the date of purchase. Proof of purchase must be provided with any warranty claim.

Goods must be returned to the original place of purchase along with the proof of purchase for an immediate replacement.

Goeke Intermedia GmbH does not accept any responsibility for loss or damage in transit. The liability of Goeke Intermedia GmbH under this warranty is limited to replace or refund of net price (action taken is at the discretion of the company). To the extent not prohibited by law, Goeke Intermedia GmbH will not be liable for any loss of data, revenue, profits, consequential or incidental losses including punitive damages arising out of, or relating to, the use or inability to use the product. Under no circumstances will Goeke Intermedia GmbH's liability exceed the net amount paid for the product.

Not covered by this warranty are:

- Items returned without proof of purchase
- Minor defects or deviation from the product specification which are immaterial, negligible in regard to product value or the function of the product
- Charger / battery with declining running time (reduced capacity)
- Battery no longer accepting charge
- Battery with cracked housing or showing any other signs of impact
- Battery with production code removed or not legible
- Charger/ battery exposed to any kind of fluid, dirt or any other contamination
- Charger/ battery exposed to extraordinary environmental influences (excess voltage, strong magnetic fields etc.)
- Any other circumstances and conditions outside of the responsibility of Goeke Intermedia GmbH and not related to defects of material or workmanship.
