

## Safety Data Sheet

### 1. IDENTIFICATION

**Lithium-Manganese-Dioxide-Batteries**

**Sizes:** All cells  $\leq 1$  g Lithium content  
All batteries  $\leq 2$  g Lithium content

**Anabasis Handelsgesellschaft mbH**

Zwinkelweg 2, 89561 Dischingen/Germany  
Phone +49 7327 / 92086  
Fax +49 7327 / 922049

### 2. HAZARDS IDENTIFICATION

**Note:** The batteries described in this Safety Data Sheet are sealed and are not harmful, as long as they are used in compliance with the manufacturer instructions. The content of the battery housing does not create a hazard, as long as the integrity of the battery housing is not affected by abuse (mechanical, thermal, electrical). Fire, explosion and severe, burn hazard in such abuse conditions may occur.

**Warning:** Do not charge, short circuit, puncture, deform, disassemble, heat above 85 °C, incinerate or expose contents to water. Keep batteries away from small children. International Standard IEC 60086-4 contains more detailed information on safety of lithium batteries.

GHS Classification: N/A

### 3. COMPOSITION / INFORMATION on INGREDIENTS

Substance	Approximate percent of total weight
Lithium Metal	1 - 5
Lithium-Trifluoromethane-Sulfonate	< 1.5
Lithium perchlorate	< 1.6
Manganese Dioxide	13 - 75
Dimethoxyether	1 - 10
Graphite	1 - 5
Stainless Steel	33 - 75
Teflon	1 - 5
Propylene Carbonate	2 - 9
Plastic	< 20
Dioxolane	1 - 9

## Safety Data Sheet

Lithium Hexafluoroarsenate 1 - 4

Mercury (Hg) < 0.0005  
Lead (Pb) < 0.004  
Cadmium (Cd) < 0.002

.....

### SVHC substances according to REACH (Article 33)

Contents	EC No.	CAS No.	Material
> 0,1%	203-794-9	110-71-4	1,2-dimethoxyethane; ethylene glycol dimethyl ether (EGDME)

.....

## 4. FIRST AID MEASURES

### Contact to internal Battery content:

- ▶ **Skin:** Immediately flush with plenty of water for at least 15 minutes. If symptoms are present after flushing, get medical attention.
  - ▶ **Eyes:** Immediately flush with plenty of water for at least 15 minutes and get medical attention.
  - ▶ **Respiratory system:** Leave area immediately. With large quantities and irritation of the respiratory tract get medical attention.
  - ▶ **Ingestion:** Rinse mouth and surrounding area with water. Seek for immediate medical attention.
- .....

## 5. FIRE – FIGHTING MEASURES

### A. Extinguishing Media:

- ▶ Copious amounts of water is an effective extinguishing medium for lithium batteries, as long as batteries are not yet venting or exploding.

## Safety Data Sheet

- ▶ Lith-X (Class D extinguishing media) is effective on fires involving only a few lithium batteries.
- ▶ Dry chemical type extinguishers have only limited extinguishing potential.

### **B. Fire Fighting Procedures:**

- ▶ Use a positive pressure self-contained breathing apparatus if batteries are involved in a fire.
  - ▶ Full protective clothing is necessary.
  - ▶ During water application caution is advised as burning pieces of lithium may be ejected from the fire.
- .....

### **6. ACCIDENTAL RELEASE MEASURES**

When the battery housing is damaged, small amounts of electrolyte may leak. Seal battery air tight in a plastic bag, adding some dry sand, chalk ( $\text{CaCO}_3$ ) or lime ( $\text{CaO}$ ) powder or Vermiculite. Electrolyte traces may be wiped off dryly using household paper. Rinse with water afterwards.

.....

### **7. HANDLING AND STORAGE**

- ▶ Do not allow terminals to short-circuit.
    - ▶ Storage preferably in a cool (below 30 °C), dry area that is subject to little temperature change.
    - ▶ Do not place near heating equipment, nor expose to direct sunlight for long periods. Elevated temperatures can result in reduced battery service life.
- .....

## **Safety Data Sheet**

---

### **8. EXPOSURE CONTROLS / PERSONAL PROTECTION**

Respiratory equipment: None required under normal use conditions.  
Hand protection: None required under normal use conditions. Use butyl gloves when handling leaking batteries.  
Eye protection: None required under normal use conditions. Wear safety glasses when handling leaking batteries.

.....

### **9. PHYSICAL AND CHEMICAL PROPERTIES**

Geometric solid objects.

.....

### **10. STABILITY AND REACTIVITY**

May rupture violently when heated above 100 °C or when charged.

.....

### **11. TOXICOLOGICAL INFORMATION**

Not applicable.

### **12. ECOLOGICAL INFORMATION**

Not applicable.

.....

### **13. DISPOSAL CONSIDERATIONS**

In accordance with appropriate national regulations.

.....

### **14. TRANSPORT INFORMATION**

**Lithium-Metal Batteries (UN 3090)**

That we supply to our customers are subject to the regulations on dangerous goods.

## Safety Data Sheet

Transport may be facilitated by observing the following special provisions.

**Air transport:** IATA Dangerous Goods Regulations 58th Edition Packing instruction 968 Section II

UN 3090 = FORBIDDEN with PAX (Passenger- and Cargo Aircraft) ONLY: CAO

**Sea transport:** IMDG Code 37. Amendment Special provision 188/230, packing instruction 903

**Road and rail transport:** ADR/RID 2017 special provision 188/230, packing instruction 903

The requirements of the UN manual of Test and Criteria, Part III, sub-section 38.3 are fulfilled.

All of these batteries are packed and marked within appropriate protection for prevention of short circuits.

### **Lithium-Metal Batteries contained in equipment (UN 3091)**

That we supply to our customers are subject to the regulations on dangerous goods. Transport may be facilitated by observing the following special provisions.

**Air transport:** IATA Dangerous Goods Regulations 58th Edition Packing instruction 970 Section II

**Sea transport:** IMDG Code 37. Amendment Special provision 188/230, packing instruction 903

**Road and rail transport:** ADR/RID 2017 special provision 188/230, packing instruction 903

The requirements of the UN manual of Test and Criteria, Part III, sub-section 38.3 are fulfilled.

All of these batteries are packed and marked within appropriate protection for prevention of short circuits.

### **Lithium-Metal Batteries contained with equipment (UN 3091)**

That we supply to our customers are subject to the regulations on dangerous goods. Transport may be facilitated by observing the following special provisions.

**Air transport:** IATA Dangerous Goods Regulations 58th Edition Packing instruction 969 Section II

**Sea transport:** IMDG Code 37. Amendment Special provision 188/230, packing instruction 903

**Road and rail transport:** ADR/RID 2017 special provision 188/230, packing instruction 903

The requirements of the UN manual of Test and Criteria, Part III, sub-section 38.3 are fulfilled.

All of these batteries are packed and marked within appropriate protection for prevention of short circuits.

## **Safety Data Sheet**

---

**15. REGULATORY INFORMATION**

Not applicable.

.....

**16. OTHER INFORMATION**

For lithium batteries in general, Safety standard IEC 60086-4 applies.  
It contains detailed recommendations for manufactures of equipment and users.
