

ROST FLASH

Reference : 10526

1. General description

Freezes and cracks rust. When sprayed on the corroded surface, the oxides freeze (-40°C) and crack, leaving small fissures. The penetrating oil can now quickly penetrate through the cracks, providing an easy dismounting. CRC Rost Flash works on all kinds of surfaces when a movement is blocked by corrosion. Does not contain silicones or acids.

2. Features

- Cracks the layer of rust and dirt using thermal shock (reduces temperature to -40°C).
- Loosens metal parts seized by dirt, corrosion or dried-up grease.
- Penetrates quickly.
- Does not contain silicones.
- Safe on all metal surfaces, does not stain.
- Safe on most rubbers, plastics and coatings. Test on sensitive or stressed materials before use.
- Convenient 360° (including inverted position) spray valve for aerosols.

3. Applications

- Cleaning mechanical parts.
- Handling equipment.
- Seized and corroded parts.
- Agricultural equipment.
- General disassembly.

ROST FLASH

Reference : 10526

4. Directions

- Remove most of the loose dirt with a wire brush.
- Spray liberally and allow to run off.
- Use extension tube for more precise application.
- Spray from a short distance.
- Allow a few minutes for good penetration.
- Repeat if necessary.
- To remove residues or excess product, use one of the CRC cleaners.
- **A safety data sheet (MSDS) according to EC Regulation N° 1907/2006 Art.31 and amendments is available for all CRC products.**

5. Typical product data (without propellant)

Appearance	Liquid
Color	amber
Odour	Characteristic odor
Density	0.75 g/cm ³ (@ 20°C)
Flash Point	< 0 °C

6. Packaging

Aerosol 12x500 ML
